

LOST IT

'The Others' are amongst us... yet they are never seen

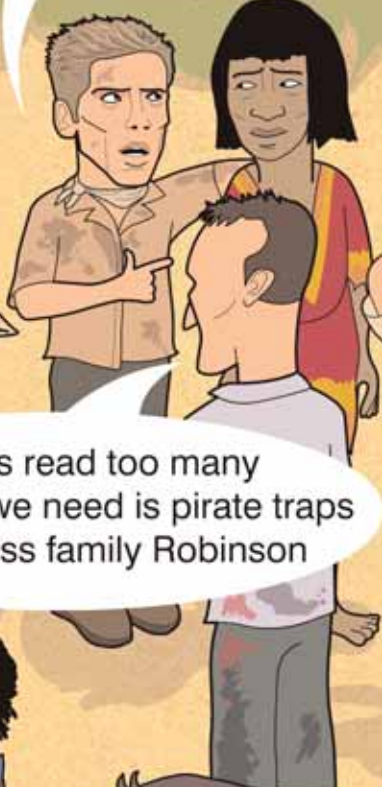

Sounds like us lads...

Who are you again?

I've got a conch

I've found a native named Friday

4... 8... 15...
16... 23... 42...
Beware the numbers!

What do they mean?

You guys read too many books! What we need is pirate traps like the Swiss family Robinson

They're his regular order at the chinese

I think someone's been here before us

I asked Paul Gerrard to organise the defenders in building this raft

That explains why it's full of holes
